

Drilling Fluids and Solid Treatment

Well Construction

Reference : DFST-E

Who should attend

Drilling Engineers and Technicians, Mud Engineers and Technicians, Drilling Supervisors

Instructor

Habib AKID

Duration

5 days

Venue

Monastir

Language

English

Fees / Trainee (Excluding VAT)

1 500 DT

Habib AKID

Course Content

1. Introduction & history
2. Functions of drilling & work over fluids
3. Basics chemistry
4. Clay chemistry
5. Drilling and work-over fluids
6. Rheology and Hydraulics
7. Pressure control
8. Borehole problems
9. Hole cleaning
10. Filtration
11. Stuck pipe
12. Lost circulation
13. Solid Control equipment and calculation
14. Special fluids for special tasks
15. Chemicals handling
16. Waste treatment and management

Certificate in Drilling Fluids from ENSPM (IFP). 30 years Experience in Tunisia and Middle East in Drilling Fluid and Solid Elimination.
