

# ***Petroleum from formation to final products***

## **Information and Management**

**Reference : PEP-E**

## **Who should attend**

*Newly recruited technical people, administrative and financial staff*

## **Instructor**

*Mokhtar AYEB*

## **Duration**

*3 days*

## **Location**

*Monastir*

## **Language**

*English*

## **Fees/Trainee**

*1 000 DT*

**Mokhtar AYEB**

## **Course Content**

1. What is petroleum ?
2. Petroleum Historic review
3. How petroleum was formed
4. Where to find petroleum: Geological considerations
5. How to find petroleum:
  - Geologic studies
  - Geophysics
6. Drilling operations:
  - Percussion drilling
  - Rotary drilling
7. Formation evaluation:
  - Coring
  - Well Logging
  - Well Testing
8. Well Completion
9. Natural flowing and artificial lift
10. Field development
11. Reservoir Management
12. Production facilities:
  - Well effluent separation and treatment
13. Crude oil and natural gas transport and storage
14. Oil and gas processing and final products:
  - Crude oil refining, gas liquefaction, petrochemical industry
15. Tunisia and world statistics:
  - Production, reserves and consumption

**NB : This training can be delivered in French Language**

Graduated Petroleum and Drilling Engineer from the French Petroleum Institute (IFP), 40 years experience in drilling and production technology (field, office and training)
