

Production and Well Intervention

Reference : WCS-E

Who should attend

*Reservoir, Production and
Drilling Engineers.*

*Drilling and Workover
Supervisors.*

Instructor

Mokhtar AYEB

Duration

4 days

Location

Monastir

Language

English

Fees/Trainee

1 200 DT

Mokhtar AYEB

Course Content

1. Basic well completion design and practices
2. Formation-wellbore communication, Sand control
3. Downhole completion equipment:
 - Packer selection and tubing forces
 - Tubing design and selection: Materials selection, Corrosion and erosion
 - flow control equipment and subsurface safety valves
4. Wellhead and chokes
5. Well performance
6. Deviated, multiple zone, subsea, horizontal, multilateral and PHT completion considerations
7. Causes and prevention of formation damage
8. Stimulation design considerations
9. Wireline, coiled tubing and Snubbing
10. Workover rig operations

NB : This training can be delivered in French Language

Graduated Petroleum and Drilling Engineer from the French Petroleum Institute (IFP), 40 years experience in drilling and production technology (field, office and training)
