OGIM Presentation:

OGIM is a training institute specialized in Oil and Gas. It was created in 2008 with the contribution of engineers from Tunisian and international oil companies, with 20 to 30 years of experience, and eminent Tunisian academics. OGIM is certified ISO 9001: 2015.

In addition, OGIM is recognized by the Tunisian Ministry of Employment and Vocational Training, under the registration number: 08/105/52 , as a training center specialized in Oil and Gas fields and is authorized to provide postgraduate petroleum training for engineers, technicians and operators, during one academic year. These training sessions last for 10 months, including a technical part focused on operating, practical workshops and a safety training. OGIM gained a large experience in training intended to the specific needs of companies.

OGIM is registered on the National Center for Continuing Training and Professional Promotion Portal as a training operator (CNFCPP, portal Malek) which enables companies established in Tunisia to sponsor candidates and benefit from a subsidy on the TFP by submitting a file to the CNFCPP.

OGIM

Oil and Gas Institute of Monastir

OGIM is accredited by the International Well Control Forum IWCF-UK, as a primary center under Number TN.983, authorized to deliver the training and Well Intervention Pressure Control certificates Levels 2, 3&4.

OGIM is also accredited by the IWCF as a virtual center under Number TN.1484 to deliver the Well Intervention Pressure Control virtual training courses and exams.

Our graduates can benefit from reduced fees for IWCF certification, after the completion of their academic trainings.

Our International Students and Trainees come From 21 Countries

Professional Diplomas: Specialties and Admission Conditions

Admission Conditions	Specialties	Hourly Volume
BAC+5 , Engineer, Master BAC+4 : after a desk review	Advanced Petroleum Engineering (E)	630 H
BAC+3, BTS, Technician BAC+2 : after a desk review	Petroleum High Technician (E)	530 H
BAC High School Level ^(*) , BTP ^(*)	Petroleum Production Operator (E) Opérateur de Production Pétrolière (F)	530 H

BAC = High School Diploma

NB 1: Desk review consists mainly of taking into account experience and complementary professional or academic studies.

NB 2: BAC + 3 having validated Petroleum High Technician Diploma, can then be accepted for Advanced Petroleum Engineering Diploma, after a desk review.

NB 3: BAC + 1 having validated Petroleum Production Operator Diploma, can then be accepted for Petroleum High Technician Diploma, after a desk review.

(*) : Last year of Secondary School Level or BTP Candidate, is invited to follow OGIM upgrade training.

(E): Courses delivered in English **(F):** Courses delivered in French

Documents Required for Registration and Contacts

- Copy of last Diploma and score sheets, for university graduates
- Copy of other certificates and score sheets, if appropriate
- Copy of Secondary Studies Diploma (Baccalauréat or other certificates)
- Copy of ID Card
- 2 photos
- CV (desirable)

NB: Language Level certificate(s):

Mandatory to be exempted from language training.

Opérateur de Production Pétrolière (F) 2026-2027

05 Oct, 2026

04 Jan, 2027

31 May, 2027

French & English Language Trainings: 180 h

Petroleum Course (F) : 350 h

Upgrade Training: 63 h

Petroleum Production Operator (E)

05 Oct, 2026

04 Jan, 2027

31 May, 2027

English Language Training: 180 h

Petroleum Course (E) : 350 h

Upgrade Training: 63 h

(F): Courses delivered in French

(E): Courses delivered in English

Petroleum High Technician (E)

2026-2027

05 Oct, 2026

04 Jan, 2027

31 May, 2027

English Language Training: 180 h

Petroleum Course (E) : 350 h

(E): Courses delivered in English

Advanced Petroleum Engineering (E) 2026-2027

05 Oct, 2026

04 Jan, 2027

31 July, 2027

English Language Training: 180 h

Petroleum Course (E) : 450 h + Project

(E): Courses delivered in English

Petroleum Production Operator (E)(F)

2026-2027

Program :

-  **Language Training**
-  **Fundamentals**
-  **Well completion and operations**
-  **Downhole Production**
-  **Surface production facilities and operations**
-  **Rotating machineries**
-  **Other surface facilities**
-  **HSE**
-  **Companies Visit**

Total (E/F): 530 hours + 2 days of visit

(F): Courses delivered in French

(E): Courses delivered in English

Petroleum High Technician (E)

2026-2027

Program :

-  **Language Training**
-  **Introduction and fundamentals**
-  **Well drilling**
-  **Well completion equipments and interventions**
-  **Surface production facilities and operations**
-  **Rotating machineries: diagnostics and maintenance**
-  **Other surface facilities**
-  **HSE in Oil & Gas industry**
-  **Companies Visit**

Total : 530 hours + 2 days of visit

(E): Courses delivered in English

Advanced Petroleum Engineering (E)

2026-2027

Program :

-  **Language Training**
-  **Geosciences and Fundamentals**
-  **Well Drilling**
-  **Reservoir engineering**
-  **Well performance and completion**
-  **Safety, Project Management and Economics**
-  **Study trip and Companies Visit**
-  **Project**
-  **Total : 630 hours + 5 days of visit + 5 weeks of project**

Training Fees (*)

	Residents (DT)		Non-Residents (Euros) (**)	
	English Language	Technical Training	English Language	Technical Training
Advanced Petroleum Engineering (E)	1 330 (***)	10 450	420 (***)	3 300
Petroleum High Technician (E)	1 330	7 460	420	2 550
Petroleum Production Operator (E)	1 330	7 460 (****)	420	2 550 (****)
	French & English Language Trainings	Technical Training	French & English Language Trainings	Technical Training
Opérateur de Production Pétrolière (F)	1 330	7 460 (****)	420	2 550 (****)

(*): VAT (TVA) Taxes included

()**: Subject to minor modifications depending on exchange rates.

(*)**: Add 375 Dinars for TOEIC Exam (Subject to AMIDEAST minor modifications) (110 Euros for Non-Residents).

(**)**: Add 720 Dinars in case of upgrading Training (220 Euros for Non-Residents).

(E): Courses delivered in English

ADDITIONAL INFORMATION

I) Description of Monastir city :

Monastir is a very pleasant university town appreciated both by the thousands of students who pursue their higher education there, and by the visitors who come to spend their holidays there (<https://www.ogim.tn/life-monastir>) . OGIM is located in the main student area of Monastir, which is equipped with all amenities, in particular many fast-food restaurants, restaurants, and studios or apartments for rent for students.

II) University Center:

Today, the University of Monastir has 14 university institutes: School of Engineering (energy, electricity, textiles, mechanics), Faculty of Sciences, Faculty of Economics and Management, Higher Schools of Biotechnology, Computer Science and Mathematics, Science and Technology, Applied Languages, Arts and Crafts, as well as Faculties of Pharmacy, Dentistry and Medicine.

III) Assistance for the Installation:

OGIM ensures the assistance for the installation. Upon arrival, students who wish can be accommodated in the Monastir youth center for a week or more at the rate of 15 Dinars per day.
